

Requirements List for workshop with Maryke Phillips

Learn techniques:

- folded patchwork
- precise log cabin foundation piecing
- beaded edges
- borders

Let's squeeze lots in!

These are techniques I use for my long wall hangings, everything you'll need to know to make one yourself, similar but different!

Requirements:

- Sewing machine
- Extension lead if needed
- 2 batik fat quarters that contrast - 2 is enough for the workshop but bring more if you have them; you would need more to complete a wall hanging. I will have batiks with me for sale.
- Rotary cutter, mat and ruler
- 6 stranded embroidery thread (again will have them with me for sale)
- Usual sewing kit
